PROGRAM AGENDA, DAY 1 Tuesday, February 27, 2018

11:00 am	Registration, Poster Setup & Lunch
11:30 am	Opening Remarks Laura Mosqueda, MD, Interim Dean of Keck School of Medicine of USC
11:45 am	Introduction of Keynote Speaker Tom Buchanan, MD, Keck School Vice Dean of Research and DORI Co-Director, USC
11:50 am	Keynote Speaker: - Pathogenesis of T2DM: the Old, the New, the Possible Ele Ferrannini, MD (Institute of Clinical Physiology, National Research Council), Italy
12:25 pm	Mobile Health Session Chair: Ashlesha Datar, PhD, Sr. Economist Director Of Program On Children & Families, USC
12:30 pm	Patient, Health Thyself: Design and Technology for Self-Care of Chronic Illness Joseph Cafazzo, PhD (University of Toronto)
1:00 pm	Technology-based, Just-In-Time, Adaptive Interventions to Prevent and Treat Obesity Donna Spruijt-Metz, PhD (University of Southern California)
1:30pm	Break
1:45 pm	Trainee Poster Presentations
2:30 pm	Introduction of Trainees: Richard Watanabe, PhD, Professor of Preventive Medicine, USC
2:35 pm	Trainee Oral Presentations
	 Effects of a Combined Aerobic and Resistance Exercise Intervention on Framingham Risk Score in Overweight and Obese Breast Cancer Survivors <i>Kyuwan Lee, University of Southern California, Graduate Student (Mentor: Christina M. Dieli-Conwright)</i> Leptin is Transported Across the Mouse Placenta <i>Soyoung Park, University of Southern California, Postdoctoral Fellow (Mentor: Sebastien G. Bouret)</i> Too Stressed to Test: Associations between Stress and Diabetes Control in a Sample of High-Risk Latinas <i>Vivianna Goh, California State University of Long Beach, Undergraduate Student (Mentor: Dara H. Sorkin)</i> High-fructose Corn Syrup-sweetened Beverage Increases Breast Milk Fructose in Lactating Women <i>Paige K. Berger, University of Southern California, Postdoctoral Fellow (Mentor: Michael I. Goran)</i>
3:55 pm	Break
4:10 pm	Diabetes & Cognitive Diseases Session Chair: Caleb Finch, PhD, Arco / William F. Kieschnick Chair In The Neurobiology Of Aging University Professor, USC
4:15 pm	Brain Insulin Resistance and Its Treatment in Diabetes and Alzheimer's Disease Konrad Talbot, PhD (The University of California, Los Angeles)
4:45 pm	Brain ABCA-1 Activity Linking Obesity, APOE4 and Alzheimer's Disease Risk Hussein Yassine, MD (University of Southern California)
5:15 pm	Closing Remarks Michael Goran, PhD, DORI Co-Director, USC

PROGRAM AGENDA, DAY 2 Wednesday, February 28, 2018

8:00 am	Registration, Poster Setup & Continental Breakfast
8:30 am	Opening Remarks & Introduction of Keynote Speaker Tom Buchanan, MD, Keck School Vice Dean of Research and DORI Co-Director, USC
8:35 am	Keynote Speaker: Why is Maintaining Weight Loss so Difficult? Steven Heymsfield, MD (Pennington Biomedical Research Center)
9:10 am	Sugars & Infancy Session Chair: Katie Page, MD, Assistant Professor of Medicine, USC
9:15 am	Nutritional and Flavor Programming Julie Mennella, PhD (Monell Chemical Senses Center)
9:45 am	Secondhand Sugars: Role of Dietary Sugars in the Early Development of Obesity and Metabolic Risk Michael Caran, PhD (University of Southern California)
	Michael Goran, PhD (University of Southern California)
10:15 am	Break
10:30 am	Trainee Poster Presentations
11:15 am	Brain and Behavior Session Chair: Megan Herting, PhD, Assistant Professor of Preventive Medicine, USC
11:20 am	The Influence of Diet and Obesity on Cognitive Function Naiman Kahn, PhD, RD (University of Illinois)
11:50 pm	Early Life Sugar Consumption and Cognitive Impairment Scott Kanoski, PhD (University of Southern California)
12:20 pm	Lunch
1:05 pm	Introduction of Trainees: Richard Watanabe, PhD, Professor of Preventive Medicine, USC
1:10 pm	Trainee Oral Presentations
	 Sex and Age Differences in the Metabolic and Neural Responses to High Fat Diet Amy Christensen, University of Southern California, Postdoctoral Fellow (Mentor: Christian Pike) Exposure to Traffic-Related Air Pollution and the Composition of the Gut Microbiota in Adolescents Tanya Lynn Alderete, University of Southern California, Postdoctoral Fellow (Mentors: Michael I. Goran & Frank Gilliland) Dietary Self-Control is Not Influenced by Food Tastiness in Overweight/Obese Children with Congenital Adrenal Hyperplasia Compared to Matched Controls Robert Kim, University of Southern California, Post-Baccalaureate (Mentor: Mimi S. Kim) In Vitro, In Vivo and Cerebrospinal Fluid Studies Implicate Decreased ABCA-1 activity with APOE4 Varun Rawat, University of Southern California, Postdoctoral Fellow (Mentor: Hussein Yassine)

2:45 pmEmerging Therapies in Diabetes Session Chair: Joyce Richey, PhD, Associate Professor of Clinical Physiology & Neuroscience, USC2:50 pmBasic Science to Clinic. Development of a Non Opiate Non Addictive Analgesic for Diabetic Neuropathic Pain and Other Diabetes Co-morbidities through the Ninds-Nih Blueprint Development Program Bruce Hammock, PhD (University of California, Davis)3:20 pmPotential for Modification of Renin Angiotensin System to Treat Diabetic Complications Kathleen Rodgers, PhD (University of Arizona)3:50 pmIntroduction of Keynote Speaker: Michael Goran, PhD, DORI Co-Director, USC3:55 pmKeynote Speaker - Brain Control of Glucose Homeostasis: Implications for the Pathogenesis and Treatment of Diabetes Michael Schwartz, MD (University of Washington)4:30 pmClosing Remarks and Award Announcement Richard Watanabe, PhD, Professor of Preventive Medicine, USC Joyce Richey, PhD, Associate Professor of Clinical Physiology & Neuroscience, USC4:45 pmAward Reception	2:30 pm	Break
Neuropathic Pain and Other Diabetes Co-morbidities through the Ninds-Nih Blueprint Development Program Bruce Hammock, PhD (University of California, Davis)3:20 pmPotential for Modification of Renin Angiotensin System to Treat Diabetic Complications Kathleen Rodgers, PhD (University of Arizona)3:50 pmIntroduction of Keynote Speaker: Michael Goran, PhD, DORI Co-Director, USC3:55 pmKeynote Speaker - Brain Control of Glucose Homeostasis: Implications for the Pathogenesis and Treatment of Diabetes Michael Schwartz, MD (University of Washington)4:30 pmClosing Remarks and Award Announcement Richard Watanabe, PhD, Professor of Preventive Medicine, USC Joyce Richey, PhD, Associate Professor of Clinical Physiology & Neuroscience, USC	2:45 pm	
1 Kathleen Rodgers, PhD (University of Arizona) 3:50 pm Introduction of Keynote Speaker: Michael Goran, PhD, DORI Co-Director, USC 3:55 pm Keynote Speaker - Brain Control of Glucose Homeostasis: Implications for the Pathogenesis and Treatment of Diabetes Michael Schwartz, MD (University of Washington) 4:30 pm Closing Remarks and Award Announcement Richard Watanabe, PhD, Professor of Preventive Medicine, USC Joyce Richey, PhD, Associate Professor of Clinical Physiology & Neuroscience, USC	2:50 pm	Development Program
 3:55 pm Keynote Speaker - Brain Control of Glucose Homeostasis: Implications for the Pathogenesis and Treatment of Diabetes Michael Schwartz, MD (University of Washington) 4:30 pm Closing Remarks and Award Announcement Richard Watanabe, PhD, Professor of Preventive Medicine, USC Joyce Richey, PhD, Associate Professor of Clinical Physiology & Neuroscience, USC 	3:20 pm	
 4:30 pm Closing Remarks and Award Announcement Richard Watanabe, PhD, Professor of Preventive Medicine, USC Joyce Richey, PhD, Associate Professor of Clinical Physiology & Neuroscience, USC 	3:50 pm	Introduction of Keynote Speaker: Michael Goran, PhD, DORI Co-Director, USC
Richard Watanabe, PhD, Professor of Preventive Medicine, USC Joyce Richey, PhD, Associate Professor of Clinical Physiology & Neuroscience, USC	3:55 pm	Pathogenesis and Treatment of Diabetes
4:45 pm Award Reception	4:30 pm	Richard Watanabe, PhD, Professor of Preventive Medicine, USC
	4:45 pm	Award Reception
